January 8, 2015
NORTHWEST WASHINGTON CHAPTER OF ICC

INSPECTION TRAINING FOR ADULT FAMILY HOMES

The Washington Administrative Code 51-51-0325 addresses building code requirements for new and existing houses that apply to be licensed as Adult Family Homes. Have you ever been sent out to complete an inspection at a proposed adult family home and not been sure what to look for? Has a DSHS licensor ever called you about an adult family home and you wished you’d had more information ahead of time? This 2 hour class will consist of training followed by a Q &A session about Adult Family Homes.

Shannon M. Quinn of Washington State Department of Social and Health Services will be presenting a training about Adult Family Home regulation for the members of NWCICC on January 8, 2015. Shannon has worked for DSHS since 2011 and has been completing Adult Family Home licensing inspections since 2012.

This workshop will benefit Building Officials, Building Inspectors, Permit Technicians, Fire Marshals, Fire Inspectors, and Plans Examiners

Everett Firefighters’ Hall
2411 Hewitt Avenue / Everett WA 98201
www.everettfirefighters.org
